Shea
Alliance**

GSA Postpones Shea 2020

Due to the growing global concerns on the spread of the corona virus (COVID-19), the Global Shea Alliance (GSA) has postponed the International Shea Conference - **Shea 2020** - to **June 1- 3, 2020**.

Over the last few weeks, GSA has worked with Togolese health authorities in the hope that the conference gets underway as our stakeholders have, all along, looked forward to, however, GSA believes that proceeding with the current dates would not be in the best interest of members, staff, partners and other participants whose health and safety we hold as top priority.

GSA appreciates the advanced level of your travel plans, but hopes you will graciously support the move, while you take steps to attend the conference in June.

Please be assured that, apart from the newly announced dates for **Shea 2020**, all other arrangements, including registration for the conference and venue still remain valid.

GSA will continue to work closely with all members and partners across the industry with regards to any new development.

Kindly contact info@globalshea.com or p.nunoo@globalshea.com on any enquiries and concerns about registration and exhibition.

We look forward to welcoming you on **June 1-3, 2020**.

Kind regards,
GSA Secretariat
