Halal National Mark ..
Contents:

1. Definitions.

2. Procedure for obtaining HNM.

3. Applicable Standards.
The Halal National Mark (HNM):

The mark approved by ESMA board to be granted to a certain product to confirm the conformity of a product, service and production system to the halal requirements.

Licensing To use HNM:

Certificate granted by ESMA to authorize the use of Halal National Mark to be placed on products, facilities or production systems conforming to the requirements of halal requirements.
The provisions of this Regulation shall apply to products, services or eligible production systems that are applying for a license using the national mark of halal.
The conformity assessment model for issuing Halal Certificate is based on Full Assessment Scheme in which the facility/products shall comply with the requirements in order to get halal certificate and be granted with National Halal Mark.
1. Application Submission:
Manufacturers/Traders shall submit on line application through ESMA website with the following:
- Valid Industry/Trade License.
- Table of ingredients list
- Table of finished/raw materials
- Copy of halal certificate of ingredients/Raw materials or copy of product specification.
- Manufacturing process flowchart & production procedure.
- Label artworks
- Test reports.
- Proof of effective implementation of FSMS/GMP/GHP or QMS.
PROCEDURE FOR OBTAINING HNM:

2. On-Site Assessment:

- After the document review of the application, ESMA conducts on site assessment to verify the compliance of the facility & products with the related UAE standards.

- ESMA and applicant agrees on the corrective action and the period to close it.

- Applicant submits correction action to ESMA for their review.
3. Issuance of Certificate and license to use HNM:

- After fully compliance with UAE regulation for halal products and its requirements, ESMA grants Halal National Mark to the factory and issue Halal certificate for registered products.

- Certified factories are required to put the HNM on their products.

- Surveillance assessment are conducted either by market monitoring OR factory audit.

- Certificate validity is 3 years.
Market Monitoring:

- Necessary samples are picked up from all supply points and outlets for necessary examinations to ensure their conformity with the requirements.
- If any nonconformity is detected, necessary action shall be initiated against the supplier/manufacturer.
